About Us

The National Youth Employment Coalition (NYEC) is a member-based organization working toward an America in which all young people become thriving members of our economy and society, regardless of their race, gender, ability, geography, or means. Our work at the intersection of policy, practice and education builds a body of knowledge about what works. Since our inception 40 years ago, we've strengthened hundreds of youth-serving organizations and influenced dozens of federal laws.

The Annual Forum

NYEC's [Annual Forum](#) brings together leaders, practitioners, and young people across the fields of workforce development, education, and youth development to discuss emerging practices, problem-solve, and engage policymakers.

What's Different about the 2020 Annual Forum?

In a year like no other, the Annual Forum will also be different. We will emphasize: how our field and the young people we serve will **recover** and **heal** from the COVID-19 pandemic, **strategies** to set a new vision for young people, and **mobilization** within and across coalitions to bring together young people and adult allies to change systems. Learn more about our unique convening at <https://nyec.org/forum/2020/>.
