NEEDS - NATIONAL SURVEY

2022

# Our Work

The National Youth Employment Coalition (NYEC) is a member-based organization working toward an America in which all young people become thriving members of our economy. Our work sits at the intersection of policy, practice and education. Over 41 years, we have strengthened hundreds of youth-serving organizations, set pathways to ground-breaking federal and state legislation, and fostered the empowerment of thousands of young people across the country.

# Sponsorship Opportunities

Join us for the National Youth Employment Coalition's 2023 Annual Forum: Turning Vision Into Action. NYEC and 200+ partners across the country will problem-solve local community issues, organize for successful youth employment advocacy and hear from youth leaders and adult allies who are leading efforts to advance the lives of Opportunity Youth across the nation.

This in-person event features innovative session tracks designed by experts in the field to share their knowledge on topics such as mental health, grassroots advocacy, community violence prevention, and more. The conference heavily emphasizes peer-to-peer learning, problem-solving, and youth engagement (including mini-grants for young adult changemakers).
